

((/4))
19/0238/RSP

All relevant planning conditions must be discharged prior to the commencement of work. Requests to discharge conditions must be made by formal application. Fees are £116 per request (or £34 where the related permission is for extending or altering a dwellinghouse or other development in the curtilage of a dwellinghouse). Please note that requests made without the appropriate fee will be returned unanswered.

There may be a requirement for the approved development to comply with the Building Regulations. Please contact Hertfordshire Building Control (HBC) on 0208 207 7456 or at buildingcontrol@hertfordshirebc.co.uk who will be happy to advise you on building control matters and will protect your interests throughout your build project by leading the compliance process. Further information is available at www.hertfordshirebc.co.uk.

Community Infrastructure Levy (CIL) - Your development may be liable for CIL payments and you are advised to contact the CIL Officer for clarification with regard to this. It is a requirement under Regulation 67 (1), Regulation 42B(6) (in the case of residential annexes or extensions), and Regulation 54B(6) (for self-build housing) of The Community Infrastructure Levy Regulations 2010 (As Amended) that a Commencement Notice (Form 6) is submitted to Three Rivers District Council as the Collecting Authority no later than the day before the day on which the chargeable development is to be commenced. DO NOT start your development until the Council has acknowledged receipt of the Commencement Notice. Failure to do so will mean you will lose the right to payment-by instalments (where applicable), lose any exemptions already granted, and a surcharge will be imposed.

Care should be taken during the building works hereby approved to ensure no damage occurs to the verge or footpaths during construction. Vehicles delivering materials to this development shall not override or cause damage to the public footway. Any damage will require to be made good to the satisfaction of the Council and at the applicant's expense.

Where possible, energy saving and water harvesting measures should be incorporated. Any external changes to the building which may be subsequently required should be discussed with the Council's Development Management Section prior to the commencement of work.

- 2 The Local Planning Authority has been positive and proactive in its consideration of this planning application, in line with the requirements of the National Planning Policy Framework and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority suggested modifications to the development during the course of the application and the applicant submitted amendments which result in a form of development that maintains/improves the economic, social and environmental conditions of the District.
- 3 The applicant is advised that this grant of planning permission relates only to the development set out in the description and does not relate to the Kitchen extractor or its enclosure currently in situ on the roof above the single storey rear extension

Dated: 1 April 2019

Signed
Kimberley Rowley
Head of Regulatory Services
On behalf of
Director of Community & Environmental Services,
Three Rivers District Council, Three Rivers House, Northway, Rickmansworth, Herts WD3 1RL
